Superior Cleanroom Foam Wipes & Sponge

Product Images

Description

Constructed from an open-cell ester-based polyurethane medical grade foam. 100% fibre-free and will not interfere with the curing of elastometers and adhesives used in Aerospace and medical applications. Widely applied to the cleaning of metal masks used to print thick film resistors and hybrid circuits. Enables excess paste to be thoroughly removed while minimising abrasion damage to the emulsion

- Soft sponge-like construction minimises abrasion to metal mask emulsions
- Low density foam makes it perfect for scratch sensitive surfaces
- Certified non-cytotoxic and lot traceable to comply with FDA standards
- Available in various sizes
