

Miller Stretchable 2M Manyard with Scaff Hook

Product Images

Description

A fall arrest Lanyard or Manyard® is used where there is a definite fall hazard and contains a shock absorber to dissipate the forces on the body in case of a fall

- A unique stretchable design for greater freedom of movement and safety
- When contracted, it greatly reduces the risk of tripping, snapping and dragging
- 2 meters in length
- Reliable visual inspection
- Heavy-duty outer jacket acts as a protective sleeve
- Special woven shock-absorbing inner core
- Unique warning flag provides visual proof that a lanyard has been involved in a fall
- The integrated core becomes visible if the outer jacket is damaged or worn and unfit for service
- Hi-tech protective finish on the outer tubular jacket prolongs the services life of the Manyard
- Supplied with a pull away connection clip that attached to the harness to hold the Manyard when not in use, thus limiting tripping risks
- Comes with a galvanised connectors (CS20) on one side & a scaff Hook (65mm) on the other
- Conforms to EN 355
