

Miller Titan Restraint Kit

Product Images

Description

The Miller Titan Restraint Kit contains a harness and a restraint lanyard to restrict the movement of workers, preventing them reaching a location where a fall hazard exists

- Cost effective kit for fall restraint
- Titan 1 Point harness with rear anchorage
- Fully adjustable D-ring so one size fits all
- 2 metre restraint lanyard with 2 screwgate karabiners
- Supplied in carry pack which protects the equipment when not in use
- Note: This kit is not suitable for fall arrest
