

Ansell Scorpio Gauntlet

Product Images

Description

The top-quality neoprene coating used in the Ansell Scorpio Gauntlet is designed to protect hands against a wide range of acids, caustics, alcohols and more in a chemical environment. These gauntlets feature a special Hi-Lo insulated construction for use in both hot and cold temperatures, with a handling range of -25°C up to 180°C. With an anatomical glove shape which fits the shape of a resting hand, this reusable gauntlet improves dexterity and reduces hand fatigue, providing the wearer with added comfort
