

3M G500 Headgear

Product Images

Description

3M G500 Headgear provides a versatile and comfortable solution for wearers who require both face and hearing protection where no head protection is needed, with special design features making it easy to combine with other 3M products such as face shields and passive earmuffs

- A practical solution for face and hearing protection
- Designed to be combined with a wide range of products
- Ventilated front cover for increased comfort
- Robust design for use with and without earmuffs
