## Description

---

The Geerpres Stainless Steel Mop Wringer is electropolished to make the surface very smooth so bacteria and foreign particles have nothing to attach themselves to

- Made from type 304 stainless steel
- Resists abrading, rusting, discolouring or staining in normal use
- Wringer is autoclavable and available with a flat band for use on half-round buckets
- For 16-24 oz mop
- Steel insert for wringer available separately
