

Texwipe TexMop Head and Handle

Product Images

Description

Texwipe AlphaMop™ has been specifically designed for use in cleanroom and critical environments. Manufactured using the same material as the Texwipe AlphaWipe®, the AlphaMop™ offers effective cleaning and low particle generation making it the ideal choice of cleanroom mop for any application

- Specifically designed for the needs of ultraclean production environments
- Easily changeable, laundered polyester covers
- Covers fit over a flat-padded head assembly allowing users to rapidly change wiping surfaces and foam pads as they mop
- Replaceable foam pad ensures that the polyester cover conforms to textured floors and other surfaces
- Bag-Within-A-Bag® cleanroom packaging
- Ultralow particle generation and extractables
- Strong and lightweight with no oxidation
- Provides the cleanest substrate available for cleaning walls, floors and ceilings
- Texwipe mops are specifically designed for use in cleanrooms and offer maximum contamination control.

We stock a large range of Texwipe products including wipers, swabs, cleanroom stationery, cleanroom mops, cleanroom mats etc.
