

Texwipe Vectra QuanSat LT Wipes

Product Images

Description

The Texwipe Vectra® QuanSat™ LT Wipes have been designed to advance the cleaning process. Constructed from a low titanium dioxide (TiO₂) 100% polyester, the material of the Vectra® QuanSat™ LT Wipes are pre-saturated, with an ultralow particle, sealed-border finish. This makes them perfect choice in critical cleanroom environments

- Safe for processes that are affected by the presence of TiO₂
- Low levels of ions, particles, fibres and NVRs
- Pre-wetted with 0.2 µm filtered 6% IPA / 94% DIW
- Does not easily snag or abrade
- Packaged in resealable slider bags to retain moisture
- Individually lot coded for traceability and quality control
- Ideal for cleaning and wiping parts, equipment and surfaces
- Perfect for use with solvents such as IPA, ethanol, acetone and degreasers
- For use in temperatures up to 205°C (400°F)
- 9" x 9"
