

Texwipe CleanFoam Small Flexible Tip Swabs

Product Images

Description

Texwipe's CleanFoam® Small Flexible Tip Swabs have been constructed with a complete thermal bond to eliminate adhesive contamination from high quality 100ppi polyurethane foam. Completely cleanroom processed and packaged, the CleanFoam® Small Flexible Tip Swabs provide low levels of non-volatile residues and ions, making them the perfect choice for critical cleanroom environments

- 100 ppi CleanFoam® head
- Flexible head tip
- Compact, 100% virgin polypropylene handle
- Thermal head bond
- Ideal for absorbing solvents and solutions and grabbing particulates
- Chemically compatible with a variety of solutions
- Autoclavable in dry heat and steam
- Lot-coded for traceability and quality control
- For use in biologics, medical device, microelectronics, optics, pharmaceuticals and semiconductor industries
- Perfect for application and removal of adhesives, lubricants and other solutions
- Ideal for removal of excess materials and debris and scrubbing recessed areas
- Good for cleaning intersecting surfaces and joints and also with compatible solutions and solvents
- For use in temperatures up to 176°C/350°F
