

Master Lock Steel Group Lock Box

Product Images

Description

The Master Lock Steel Group Lock Box is a portable lockout box which accommodates up to 12 users, with more capable of being added through the use of hasps. The Steel Group Lock Box secures each lockout point on a piece of equipment with just one designated lock and the Latch Tight™ feature ensures that keys cannot be accessed unless all safety padlocks are removed

- Portable group lockout box
- Secure each lockout point on a piece of equipment with just one designated lock
- Each authorized employee locks one personal safety lock onto the box, removing them only when their work is complete
- Latch Tight™ feature ensures that keys cannot be accessed unless all safety padlocks are removed
- Ergonomic handle
- Trilingual labels in English, Spanish and French
- Durable powder-red coated red finish
- Accommodates up to 12 users, more can be added through the use of hasps
- Width: 95mm
