

Dazor LED Circline Magnifier - Black

Product Images

Description

Featuring a floating arm manufactured from forged steel, Dazor's LED Circline Magnifier is the ultimate tool for providing the perfect amount of magnification together with abundant, shadow-free light. This LED Circline Magnifier utilises an innovative glow ring to diffuse and soften the light emitted by the LEDs

- Provides even, shadow free light across broad surfaces
- Twice as bright as traditional 22W fluorescent bulbs
- Forged steel floating arm adds flexibility
- Durable powder-coated finish
- Sturdy, weighted desk base or clamp mount available
- Innovative Glow Ring softens light
- Dimmable to 20% intensity
- Superior energy efficiency
- Cord Length: 7ft
- Voltage: 100-240
- Colours Available: White, Black, Dove Grey
