Product Images

Description

Dependable's CO₂ Fire Extinguishers are suitable for quenching Class B and C fires, including live electrical blazes. The CO₂ Fire Extinguisher comes with a wall-mounting bracket, ensuring quick and easy access when you need it most

- Cylinder made from aluminium and lightweight steel
- Contains completely non-toxic CO₂
- Suitable for Class B
- Pressure relief valve included
- Wall-mounting bracket included
- ISEN 3 Certified
- CE0029 Certified
- Please note that although we endeavour to have this shipped via next day delivery, due to its classification it requires additional handling by our courier partner. This could lead to a longer delivery time - for any queries or clarification please contact [our sales team](#) or [click here](#) to view our Terms and Conditions
