

Global Tool Compartment Stool

Product Images

Description

The Global Tool Compartment stool is the ideal ergonomic seating solution for any worker whose work is primarily based on or near ground level. The adjustable height reduces the need for any unnecessary manoeuvring, reducing the risk of injury or back strain

- Low gas spring
- 400mm diameter steel base
- Option of two or six toolbox compartments
- Adjustable height from 370mm to 500mm
- 5 castors, two with breaks for enhanced safety and security
- Conforms with EN 1335-2 and 1335-3
