

Multicore Lead-Free Solder Paste - LF318

Product Images

Description

- Specially formulated for lead-free alloys
- High temperature tolerance
- Outstanding humidity resistance
- Superior slump resistance
- Colourless, non-stick, pin-testable residues
- Suitable for fine pitch, high speed printing
- Wide printing and reflow process windows
- Wide printing capability
- Excellent solderability
- Halide-free flux classification: ROLO to ANSI/J-STD-004
