

QTEK ESD High Temperature Masking Tape

Product Images

Description

- ESD safe high temperature masking tape to provide protection for static sensitive components
- Polyimide, pressure-sensitive, adhesive tape with silicone resin
- Excellent dielectric insulation properties
- High heat resistance and excellent solvent resistance
- Ideal for masking PCB gold fingers during wave solder or solder dip processes
- Tape comes in 33m rolls and in widths of: 4mm, 6mm, 12mm, 19mm, 25mm, 38mm, 50mm & 75mm
- Length: 33m
- Other widths available on request
