

3M Repositionable Adhesive Spray 75

Product Images

Description

The 3M Repositionable Adhesive Spray 75 is ideal for holding and positioning lightweight materials temporarily. The Adhesive Spray features an extra-long tack range to allow lifting and repositioning of materials

- Holds and positions lightweight materials temporarily
- Extra-long tack range to permit lifting and repositioning of materials
- Joins delicate substrates without damaging the material
- Dries clear
- Produces a smooth glue line and resists wrinkling on most materials
- Helps prevent lightweight materials from wrinkling when bonded
- 500ML
