

Tempshield Waterproof Elbow-Length Cryo-Gloves

Product Images

Description

Lightweight, comfortable and waterproof, the Tempshield Elbow-Length Cryo-Gloves provide warmth while retaining flexibility even after prolonged exposure to cold atmospheres. The gloves allow sufficient dexterity to handle small objects and controls.

- Elbow length protection
- Provide warmth while retaining flexibility, even after prolonged exposure to cryogenic atmospheres
- Waterproof
- Offer superior thermal protection when working with ultra-low temperature freezers, blast freezers, dry ice, and in coldrooms
- Also for use with liquified natural gas, liquid helium, and liquid oxygen in enclosed systems
- Caution: Gloves are not for immersion in LN2
