

Tempshield Waterproof Shoulder-Length Cryo-Gloves

Product Images

Description

Lightweight, comfortable and waterproof, the Tempshield Shoulder-Length Cryo-Gloves provide warmth while retaining flexibility even after prolonged exposure to cold atmospheres. Gloves allow sufficient dexterity to handle small objects and controls. Shoulder Length Gloves protect as far as the shoulder

- Provide warmth while retaining flexibility, even after prolonged exposure to cryogenic atmospheres
- Waterproof
- Offer superior thermal protection when working with ultra-low temperature freezers, blast freezers, dry ice, and in coldrooms
- Can also be used with liquified natural gas, liquid helium, and liquid oxygen in enclosed systems
- Caution: Gloves are not for immersion in LN2
