

3M Peltor X3P3 Helmet Mounted Earmuffs

Product Images

Description

3M's Peltor X3P3 Helmet Mounted Earmuffs are ideal for using in moderate to high noise level environments, such as airports, forestry or heavy engineering. Offering 32 dB attenuation, the X3P3 Helmet Mounted Earmuffs are also extremely lightweight and comfortable to wear

- Reduced heat build-up and good fit for the wearer due to twin headband design
- Sleek, dual moulded cups for improved compatibility with other PPE
- Electrically insulated wire headband
- Wide soft ear cushions
- CE Approved
- Helmet Mounted
- 32 dB attenuation
