Description

Economical Euromex EuroLED Ring Light Illuminations with 60 LEDs or 144 LEDs for different work distances. Light intensity is adjustable. Delivered with the power supply

- LE 1972 Ring illuminator with 60 LEDs in 4 segments, with adjustable light intensity between 10-100%
- External mains adapter: 110-240 V AC to 12 VDC
- Segment controller
- Colour temperature between 6,500 and 7,000 and emits approximately 20,000 lux at 100mm distance
- External diameter: 100mm
- Suitable for working distances between 55 and 200mm

- LE 1973 Ring illuminator with 144 LEDs in 4 segments with adjustable light intensity between 10-100%
- External mains adapter: 90V-264 V AC to 12 VDC
- Segment controller
- Colour temperature of 6,500 K and emits approx. 20,000 lux at 100mm distance
- Brightness of 20,000 Lux at height of 100mm and colour temperature of 6,400 K
- External diameter: 100mm
- Suitable for working distances between 55 and 200mm
