

QTEK Micro Fine Pitch Screen Rolls - Ekra

Product Images

Description

The QTEK Micro Fine Pitch Screen Rolls are specifically designed to optimise the stencil cleaning process. Proven to increase productivity and yield, while decreasing defects and manufacturing costs, the Micro Fine Pitch Screen Rolls outperform all other products in terms of cleanliness, absorbency, cleaning ability and chemistry compatibility

Features:

- Fully automated production line removes human interaction with the product
- Enhanced fabric flexibility and softness enables cleaning of difficult to reach parts of the stencil
- Multi-dimensional texture traps foreign particles
- Manufactured to release low levels of particles and extractables
- Designed for use on abrasive surfaces
- Snag and abrasion-resistant - will not release particles or fibres into the environment
- Requires significantly less chemical solution at the point of cleaning compared to other products
- No binders, surfactants or other chemical additives

Specifications:

- 100% spunbond polypropylene
- Hydrophilic surface modification treatment

- Fibres: $\geq 100\mu\text{m}$ fibres/0.88
- Sodium: ppm 3.0
- Chloride: ppm 5.0
- Absorbency: 220%
- ROHS compliant
- ISO 6 Cleanroom compatible
