

Pelstor High Lift Pallet Truck

Product Images

Description

The Pelstor High Lift Pallet Truck has been designed for use with an open bottom pallet or stillage. With a larger than standard capacity of 1500KG, the High Lift Pallet Truck is effective at raising a load to a more acceptable, workable height

- Scissor action, high lift pallet truck
- Single cylinder lifting system
- Capacity of 1500KG
- Total lift height 800MM
- Designed for use with an open bottom pallet or stillage
- Can help reduce repetitive strain injuries by raising the load to a more acceptable height
- Dimensions across forks: 520MM x 1100MM
