

QTEK Supasat Poly-cellulose Cleanroom Wipes

Product Images

Description

QTEK Supasat Poly-cellulose Cleanroom Wipes have been developed from expertly blended polyester and cellulose material. These Supasat Cleanroom wipes have been pre-saturated with 70% / 30% IPA/DI and are suitable for cleanroom environments and general production areas

- Super-absorbent, non-woven, cleanroom wipe, with extremely low particulate generation and ultra-purity
- Manufactured in Class 100 environment
- Soft but durable, will not scratch or damage surfaces
- Low in soluble extractables and metallic ions and can absorb four times its own weight
- Ideal as a general purpose cleanroom wipe
- Excellent tensile, tear and bursting strengths
- Manufactured using advanced hydro-entanglement technology
- 9" x 9"
- Pack 50
