

Wearwell 24/Seven 572

Product Images

Description

Great fatigue relief at an affordable price. Made from a resilient and durable oil-resistant compound, it has the perfect blend of cushioning and stability for protection against standing fatigue. Ideal for covering larger or irregularly shaped areas and its smooth drainage holes help to prevent any build up of liquid or debris

- Construction: Oil-resistant moulded rubber compound
- Built-in male connectors on two adjacent sides
- Suitability: Heavy use areas where spillage of oil or other liquids may occur
- Stock Colour Black
- Thickness 16mm
- Custom Sizes Available on request

24/Seven Edging (inset) is easy to use and install. Each piece has a corner that can be removed to expose a connector, or left intact to use as an end piece
