

Fluke 725 Multifunction Process Calibrator

Product Images

Description

- Versatile field calibrator with measure and source functions for test and calibration
- Measures Volts, mA, RTD's, thermocouples, frequency and ohms to test sensors and transmitters
- Source/simulate volts, mA, thermocouples, RTD's, frequency, ohms and pressure to calibrate transmitters
- Measure/source pressure using any of the 29 Fluke 700Pxx Pressure Modules
- Support flow meter testing with frequency and CPM (counts per minute) functions
- Perform fast linearity tests with auto step and auto ramp features
- Power transmitters during test using loop supply with simultaneous mA measurement
- Large battery capacity of four AA cells
- Included Accessories
- TL75 Test Leads, AC72 Test Clips, one pair of stackable test leads and user's manual
- Product is POA (Price on Application)
