

QTEK SMT ESD Cover Tape Extender

Product Images

Description

QTEK's SMT ESD Cover Tape Extender is used to save components being wasted or discarded when starting tape through a feeder. This Tape Extender enables the use of tapes in full reels or short sections without any loss

- Adds an additional 380mm (15") starter to cover tape of pick and place component reels
- Strong adhesive bond between extender and original tape
- Ensures extender and original tape will not separate, even after prolonged time under tension
- ESD-Safe
- Transparent PET
- Release paper
- Manufacturing process is in compliance with ISO 9001 Quality systems
- Widths and Units:
- QTEKCTE308 - SMT ESD Cover Tape Extender for 8 & 12MM - Pack 500
- QTEKCTE312 - SMT ESD Cover Tape Extender for 12MM - Pack 500
