

Honeywell Disposable Faceshield

Product Images

Description

The Honeywell Disposable Faceshield conforms to European regulations for splashes and droplets, and offers enhanced protection against the transmission of infection in the air. Suitable for use in many settings, the Disposable Faceshield is beneficial where social distancing cannot be maintained and there is a high risk of community transmission

- 329MM x 220MM – provides large coverage over the face
- Interior anti-fog coating prevents fogging and allows better vision
- 30MM foam thickness for optimal distance between face and faceshield
- PET recyclable material, 0.188MM thickness
- EN 166:2001 Clause 7.2.4 protection against droplets & splashes of liquids
- ANSI/ISEA Z87.1-2015 Clause 8.1.2 droplet & splash hazard-faceshields
- 385MM long and 20MM wide elastic band for extra comfort
