

Cobamat Standard Industrial Matting

Product Images

Description

Suitable for industrial environments such as production lines, assembly areas, workbenches, machine stops and packaging areas. Interwoven PVC matting is easy to clean with open holes (30mm x 10mm)

- Operators are protected from fatigue caused by prolonged standing
- Hard wearing flexible PVC extrusions cross-ribbed in both directions allow for safer footing
- Fully reversible
- Resistant to mild acids and alkalis
- Available in Red, Blue, Green, and Black
