

Pelstor Column Guard

Product Images

Description

The Pelstor Column Guards are highly effective at providing 360° protection from accidental impact. Constructed from resilient high density polyethylene, the Column Guards are durable and long lasting

- Surround column with a cushion of air that is released on impact, which protects the vehicle, driver and column
- Quick and easy installation with no fixings required
- Safety yellow colour designed to be visible in warehouse and enhance safety
- Unique design features structural support for increased strength and fork deflection
- Available in two sizes to fit different widths of columns
