

Cofra Break Safety Shoes

Product Images

Description

The Cofra Break Safety Shoes feature a water repellent full grain leather upper and breathable internal lining. Seamlessly combining safety and comfort, the Break S3 SRC Safety Shoes have a COFRA SOFT footbed which is antistatic, anatomic and guarantees impact energy absorption

- SPHERA internal lining: 100% polyamide fabric which is ladder-proof, breathable, abrasion resistant and can absorb and release moisture effectively
- Non-metallic APT Plate Zero Perforation midsole: flexible, lighter and higher thermal insulation than traditional steel midsole
- Aluminium toe cap resistant to 200 J
- Ultra light polyurethane sole
- S3 SRC
- Width: 11 mondopoint
- Conforms to EN ISO 20345
