

Kidde Carbon Monoxide Sealed Digital Alarm

Product Images

Description

The Kidde Carbon Monoxide Alarm is a sleek, portable and lightweight carbon monoxide alarm with a non-replaceable, sealed-in Lithium battery which provides 10 years of continuous protection. Ideal for use in all living areas.

- Digital display clearly shows level of carbon monoxide
- Peak level display allows highest carbon monoxide level recorded to be displayed
- The alarm has a unique water based Kidde carbon monoxide electrochemical sensor
- Quick test feature allows the alarm to be temporarily desensitised, allowing for quick testing using approved carbon monoxide spray
- Peak levels and test history can be analysed by Kidde upon arrangement
- 3 LED lights for: alarm, operate and fault
- End of life warning light alerts user when to replace the alarm, after 10 year period
- Easily installed on the wall or can be used free standing
- Conforms to EN 52091-1
- CE tested and certified – European standards

Kidde are the world's leading manufacturer of fire and gas safety products, providing advanced solutions to protect people and property from fire and related hazards.
