

Skytec Digit 3 Amber Level 3 Cut-Resistant Gloves - Small

Product Images

Description

Skytec Digit 3 gloves provide a cut level 3 barrier and enable precise handling in applications necessitating open fingertip contact. The flexible PU coating to the palm and to two fingertips enables a secure grip. Ideal for dry and light oily handling conditions where some resistance to cuts is required to the non exposed part of the hand.

Features:

- Machine knitted liner constructed using HPPE fibres blended with other synthetic yarns provides high levels of resistance to abrasion and tears
- 3 open fingertip design enables precise handling in applications
- Flexible polyurethane palm
- Excellent dexterity and comfort
- Amber colouring for enhanced visibility
- Sanitized® antimicrobial finish provides extra freshness
- Elasticated wrist for a secure and comfortable fit
- Level 3 cut resistance (EN388: 2003) Rating 4343
- EN388: 2016 4X43B
- Size Small
- Part of the Skytec Tricolore colour coded glove range to aid glove selection whilst on site

Applications:

- Automotive, Construction, Manufacturing
