

Superior Low Lint Tissue Wipes - 12" x 12"

Product Images

Description

Superior Low Lint Tissue Wipes are comprised of a special blend of hemp and cellulose fibres resulting in a high strength wipe with good absorbency. Superior Cleanroom Tissue Wipes have very low extractable levels and moderate particle generation making it a popular, lightweight, low-linting cleanroom tissue

- Ideal for non-abrasive applications
- Low particle generation and extractable levels
- High absorbency, tensile, and tear strengths
- 100% non-woven
- Cleanroom packed and double bagged
