

3M Adflo Particulate Filter - Pack of 2

Product Images

Description

3M Adflo Particulate Filter is a replacement filter for the 3M Adflo Powered Respirator series. In a handy 2 pack, 3M Adflo Particulate Filter is quick and easy to install

- Compatible with the 3M Adflo Powered Air Purifying Respirator and the 3M Speedglas Welding Helmet
- Replacement filters
- Filter type P SL
- Protects against particles, including metal particles in welding fume
- Simple to install
- Extends the life of your respirator
- Filters should be replaced when particle indicator becomes red, battery running time is reduced or if a 'fully loaded' low airflow alarm is triggered
- Approved to EN 12941
- Pack of 2
