

Spilfyter Chemical Classifier Strip Tube Kit

Product Images

Description

The Spilfyter Chemical Classifier Strip Tube Kit aids in identifying risks when dealing with unknown spilled liquids. The Chemical Classifier Kit is an ideal portable solution for assessing spillages

- Easily classifies a spill for proper treatment
- Identifies whether liquid is an acid/base, oxidiser, fluoride, petroleum, organic solvent, iodine, bromine or chlorine risk
- Contains 6 x Chemical Classifier Strips, 1 x Bobbin of Polypropylene Thread, 1 x Laminated Chemical Classifier Chart
