

Dependable 2M Reflective Orange Traffic Barrier

Product Images

Description

Dependable 2M Reflective Orange Traffic Barrier is a versatile and strong solution for erecting a temporary safety perimeter or barrier. Ideal for use on roads, sites, and pavements, the Dependable 2M Reflective Orange Traffic Barrier makes traffic and crowd control easy, safe, and effective

- Sturdy plastic traffic barrier with reflective stripe for high visibility
- Wind-resistant to 20 miles per hour
- Hi-vis reflective tape improves visibility at night and on roads and highways
- Patented hook and pin linking system keeps barriers securely connected
- Highly visible and flat feet present a minimal trip hazard for public safety
- Adapts to uneven surfaces and can be used on slanted or rocky ground
- Suitable for indoor and outdoor use
- Pre-drilled holes for easy fitting of signs
- Can be arranged in a variety of shapes and configurations
- Ideal for creating a perimeter or barrier on roads, hazards, highways, pavements, sites and streets
- Height: 1M
- Length: 2.05M
- Weight: 11kg
