

Moldex Air Plus FFP3 RD Reusable Valved Masks - Pack 5

Product Images

Description

The Moldex Air Plus FFP3 RD Reusable Valved Masks offer Airwave pleated filter technology, which allows for a large filter surface and low breathing resistance over a prolonged period. A secure yet comfortable fit, the Air Plus Reusable Valved Masks have a flexible ActivForm 3D design, which automatically adapts to the shape of the wearer's face and their facial movements

- Reusable - face seal can be washed and disinfected
- Skin-friendly fleece inner layer
- Adjustable woven strap
- Includes Ventex valve which starts to open even at low exhalation pressure - significantly reduces moisture and heat within the mask
- AirWave pleated filter technology offers a large filter surface within mask
- FFP3 level - protects against harmful and carcinogenic dusts, water and oil-based mists/aerosols, biological agents of risk group 2 and 3, CMR-substances
- EN 149:2001+A1:2009
- Pack 5
