

Fluke 985 Particle Counter

Product Images

Description

The Fluke 985 Particle Counter effectively measures air quality, and is ideal for use by HVAC and IAQ professionals. Completely portable with a 10-hour battery life, the Particle Counter can be used to measure filter efficiency, monitor industrial cleanrooms and locate particle sources for remediation

- Determines airborne particle concentrations
- Easy to use, with large screen and intuitive icons
- Six channels and particle size range of 0.3 - 10.0µm guarantees accurate measurements even in critical locations requiring ISO Class 5 - 9 certification
- Lightweight and ergonomic design for optimal user comfort
- Data can be downloaded to a computer via a USB memory stick, USB cable or Ethernet connection
- 10 hour of standard-use battery life
- Optional administrator password control
- Suitable for measuring filter efficiency, monitoring industrial cleanrooms, locating particle sources for remediation and pre-screening indoor air quality
- Product is POA - Price on Application
