

Stanley Pro-180 I-Beam Level

Product Images

Description

The Stanley Pro-180 I-Beam Level is a durable aluminium spirit level with shock absorbing end caps to protect it from falls, and an I-beam girder section for longevity. The Pro-180 I-Beam Level features one top read horizontal vial and one 180° rotating angle vial with double graduation

- Length: 800mm
- Aluminium body
- Durable I-beam girder section
- One top read horizontal vial
- Horizontal vial can be viewed from both sides and above for ease of access
- One 180° rotating angle vial, with double graduation for 0° - 90° and in 10° increments
- Shock adsorbing end caps protect the level accuracy from drops
- Accurate up to $\pm 1.5\text{mm}/1\text{m}$
