

Alpha Solway Flow P3 Moulded Respirators

Product Images

Description

The Alpha Solway Flow P3 Respirator has been designed to improve comfort and performance while maintaining a secure fit. The distinctive orange colour of the Solway Flow P3 Respirator allows for easy identification in areas where varying levels of protection may be required

- Polypropylene shell and outer layer
- Synthetic rubber valve membrane
- PVC foam inner face seal
- Large surface area ensures low breathing resistance
- Large exhalation valve reduces heat build-up
- Colour-coded alpha-mesh for ease of identification
- Adjustable woven, elastic head strap for secure, comfortable fit
- Pre-formed nose-bridge eliminates the need for adjustment
- Compatible with a wide range of safety eyewear
- Metal-free: suitable for food industry applications
- Conforms to EN 149: 2001 & A1: 2009
- FFP3 R D
