

Berkshire Durx 670 Nonwoven Cleanroom Wipes

Product Images

Description

The Berkshire Durx 670 Nonwoven Cleanroom Wipes have low extractable levels and particle counts, and are designed for use in ISO Class 5 cleanrooms and higher. The Durx 670 Nonwoven Cleanroom Wipes are a 55% cellulose and 45% polyester hydrogenated nonwoven blend, with high levels of absorbency, abrasion resistance and chemical compatibility

- Low extractable levels and particle counts
- Designed for use in ISO Class 5 cleanrooms and higher
- 55% cellulose, 45% polyester hydrogenated nonwoven blend
- Chemically compatible with common cleaning and disinfecting solutions
- High levels of absorbency and abrasion resistance
- No binders or other chemical additives
- 9" x 9"
- 300 sheets per pack
- Weight: 68 g/m²
- Suitable applications include: cleaning laboratory equipment, general wiping in component preparation, compounding and wash areas, applying and removing cleaning and disinfecting solutions, wrapping and wiping down general equipment, general purpose wiping
- EC Regulation 1935 (2004) Food Contact Compliant
- Meets AMS 3819D requirements, Class 2, Grade A, Form 1
- Meets BMS 15-5 requirements
- Meets RoHS requirements
