

Pelsafe FFP3 Valved Respirators - Box 10

Product Images

Description

The Pelsafe FFP3 Valved Respirators provide lightweight comfort and effective respiratory protection against toxic dusts and mists. The FFP3 Valved Respirators feature soft edges to ensure a comfortable fit, with an adjustable nosepiece and inner foam providing a custom seal

- Protects against toxic dust, fumes, solids and liquid aerosols
- Protects against particulates in concentrations of up to 20 x OEL
- Exhalation valve for greater comfort
- Vertical, flat fold design
- Polypropylene outer layer provides smooth lining and eliminates loose fibres
- Can be easily worn with glasses/goggles due to contour design
- Low breathing resistance with high filtration efficiency
- Adjustable nosepiece and inner foam provide a custom seal
- Maintenance free
- Individually and hygienically packed in boxes of 10
- Meets P3 classification
- EN 149:2001+A1:2009 FFP3 NR D
- CE certified
