

QTEK Supasat IPA Polyester Wipes

Product Images

Description

The QTEK Supasat IPA Polyester Wipes have been developed from an ultra-soft, knitted polyester material. Featuring ultrasonically sealed edges, the Supasat IPA Polyester Wipes have been pre-saturated with 100% isopropyl alcohol and are suitable for Class 10 cleanroom environments

- Manufactured from 100% continuous filament polyester
- Ultrasonically sealed edges removes need for adhesives
- Pre-saturated with 100% IPA
- Cleanroom micro-filtered to 0.2µ
- Low particles, fibres, ions and extractables
- Fast evaporation, leaving no trace
- Ideal for use in Class 10 cleanroom environments
- Robust polyester material allows for deep, aggressive cleaning
- Suitable for the removal of stubborn contaminants
- Aluminium lined resealable pouch
- 4" x 4" or 9" x 9"
- Case quantity: 20 packs / case
