

Miller MightEvac Retrieval Hoist - 15M

Product Images

Description

The Miller MightEvac System is a MightyLite™ Self-Retracting Lifeline with a quick-activating retrieval mechanism for emergency evacuation. It works in conjunction with the Miller Tripod and is easy to use

- Quick activating retrieval winch mechanism
- 4.8mm galvanised steel cable
- 20% lighter than competitive models but still has a full 310lb weight capacity
- Pressed steel housing & compact design
- Rescue winch (up/down), gear ratio 5:1
- Corrosion resistant stainless steel / aluminium
- Convenient, heavy duty carrying handle
- Integrated fall indicator
- Supplied without brackets
- 15M length
