

NLG Heavy Duty Bungee Tool Lanyard

Product Images

Description

The NLG Heavy Duty Bungee Tool Lanyard is ideal for tethering heavy tools in severe environments and features a custom developed, abrasion-resistant webbing with a Dyneema® loop end for connecting directly to a tether point or through a captive handle or hole. The Heavy Duty Bungee Tool Lanyard allows for faster visual inspections due to its heavy-duty contrast stitching and extends from 80cm to 130cm

- Automatic twist lock carabiner for superior performance and security
- Extra high strength webbing
- Heavy duty wear protector sleeve provides an additional layer of structural protection
- Powerful Dyneema® cinching loop
- Faster visual inspections with heavy-duty contrast stitching
- Contrast wear indicators ensure early warning of any structural damage
- Unique serial number for easy identification and tracking
- CE marked
- Dynamic load tested
- Dimensions: extends from 80cm to 130cm
- Maximum load: 18kg
