

Dependable Wet Chemical Fire Extinguisher - 6L

Product Images

Description

Ideally-suited to kitchen environments, Dependable's Wet Chemical Extinguishers are purpose-built for quelling auto-ignition fires caused by cooking oils or fats. Wet Chemical Extinguishers contain a chemical agent which reacts with oil to form a soap-like film to seal the surface of the oil, thereby preventing re-ignition. A wall-mounting bracket is included as standard to guarantee easy access when you need it most
