Staffin

660AA2B0Z

Jacket

The Staffin is the perfect jacket for performing all kinds of maintenance works in harsh weather conditions. The high quality coating makes this a very strong fabric but at the same time it remains a supple jacket to wear. The stomach area of the jacket has been reinforced, the welded seams make sure you stay dry while the fluorescent colour ensures your visibility. This strong and tear resistant water- and windproof jacket has no unnecessary frills but simply does what it is designed for: protecting the wearer in extreme conditions.
