

**Rubberised Fire Hose**

**Product:** Rubberised fire hose designed for indoor and outdoor use  
Highly resistant to acids, salt solutions, oil, fuel and many more chemicals  
Resistant to heat, UV and ozone  
Uses "through-the-weave-extrusion" process  
Very low friction loss and low elongation

**Materials:** Circular woven jacket constructed out of 100% high tenacity synthetic yarn  
Embedded in a vulcanised high-grade Nitrile/PVC compound

**Properties:**

<b>Hose Length:</b>	10m
<b>Working Pressure:</b>	17bar
<b>Burst Pressure:</b>	50bar
<b>Diameter:</b>	64mm
<b>Wall Thickness:</b>	2,4mm
<b>Binding:</b>	2.5 - 2.5 instantaneous

**Application Areas:** Refineries, sites and professional fire departments

**Temperature Range:** -35°C – 100°C
