

PRODUCT NUMBER: T4700
Superlite plus - T4700

Handlings of greasy and abrasive parts.

Honeywell

Overview

Reference Number

T4700

Product Type

Gloves

Range

General purpose

Line

Light & medium handling

Brand

Honeywell

Brand formerly known as

NORTH

Industry

- Automotive and Part Manufacturer
- Building and Construction
- General Industry
- Maintenance
- Metal steel
- Offshore
- Ship Building
- Transportation

Product Use

Handlings of greasy and abrasive parts.

Features & Benefits

Feature

Nitrile glove on cotton interlock base Fully dipped Knitted wrist

Benefit

COMFORT Its nitrile formula has been selected to give the glove greater elasticity and unrivalled dexterity. The cotton interlock lining strengthens the glove's mechanical performance while absorbing hand perspiration for added comfort. Ribbed at the cuff, good wrist support is provided, thus eliminating risks of getting caught. **RESISTANCE** The nitrile coating ensures good chemical properties and outstanding mechanical properties (abrasion). The combined base and coating give the glove excellent abrasion resistance. It is particularly suitable for the handling of oils, greases and hydrocarbon by-products

Technical Description

Description

Nitrile glove on cotton interlock base Fully dipped Knitted wrist

Product Technology

Cut & sewn dipped

Glove/liner color

White / yellow

Coating Type

Nitrile

Length

25 cm

Thickness

0,7 / 0,9 mm

Harmlessness

In conformity with the European standards.

Dexterity

Class 5

Sizes

7S, 8M, 9L, 10XL.

EN 388 - Mechanical Hazards Abrasion Resistance

Abrasion resistance	3
Cutting resistance (Coupe test)	1
Tear resistance	1
Puncture resistance	1
Cutting resistance (TDM test)	X

Certifications

EU Category PPE
